

Mission First, Inc. is a small business focused on providing our customers with mission-focused, mission-driven, innovative, measurable, IT solutions, and cross-domain collaborative services which improve intelligence-to-operations integration.

Value Proposition

We are laser focused on providing our customers mission with high value personnel while maximizing their Return on Investment for its IT mission services.

12 years serving the DoD and IC

Competitive

We identify, hire, manage, and take care of the best and brightest IT professionals. We provide our services at competitive prices for our customers to ensure mission success.

Adaptive

We created a management and financial plan that allows us to adapt to the market opportunities as cost competitiveness drives more decisions for our customers.

Flexible

We attract and retain cleared, professional IT staff through a flexible benefits package. This package allows our employees to customize their benefits to meet their individual needs.
